	Mental Strategies	Concrete	Pictorial	Abstract	Vocabulary	Models, Images and resources
<b>EYFS</b>	<p>If available, Numicon shapes are introduced straight away and can be used to:</p>  <p>Concrete apparatus is used to relate subtraction to taking away and counting how many objects are left.</p> <p>5 – 1 = 4 Concrete apparatus models the subtraction of 2 objects from a set of 5. Construct number sentences verbally or using cards to go with practical activities.</p> <p>Children are encouraged to read number sentences aloud in different ways “five subtract one leaves four” “four is equal to five subtract one”</p> <p>Children make a record in pictures, words or symbols of subtraction activities carried out.</p> <p>Solve simple problems using fingers</p> 	<p>Physically taking away and removing objects from a whole</p> <p>4 – 3 = 1</p>  <p>Counting back (using number lines or number tracks) children start with 6 and count back 2.</p> <p>6 – 2 = 4</p>  <p>Finding the difference (using cubes, Numicon or Cuisenaire rods, other objects can also be used).</p> <p>Calculate the difference between 8 and 5.</p> 	<p>Children to draw the concrete resources they are using and cross out the correct amount. The bar model can also be used.</p>  <p>Children to represent what they see pictorially e.g.</p>  <p>Children to draw the cubes/other concrete objects which they have used or use the bar model to illustrate what they need to calculate.</p> 	 <p>Children to represent the calculation on a number line or number track and show their jumps. Encourage children to use an empty number line</p>   <p>Can represent difference in a bar model</p> 	<p>Take (away) Leave</p> <p>How many are left/left over?</p> <p>How many have gone?</p> <p>One less, two less ... ten less...</p> <p>How many fewer is ... than</p> <p>Difference between</p> <p>Is the same as</p>	<p>100 square</p> <p>Number lines</p> <p>Number tracks</p> <p>Bead strings (for children)</p> <p>Bead bar</p> <p>Tens Frame</p> <p>Numicon</p> <p>Place Value Disks</p> <p>Cuisenaire</p> <p>Base tens and ones</p>

## Year One Subtraction

	Mental Strategies	Concrete	Pictorial	Abstract	Vocabulary	Models, Images and resources
<b>Year 1</b>	<p>Subtract a pair of one-digit numbers e.g. <math>9 - 5</math> – see EYFS</p> <p>Subtract a single-digit number from a teens number, including crossing 10, e.g. <math>15 - 8</math> – see CPA →</p> <p>Represent and use number bonds to 20</p> <p>Begin to subtract a multiple of 10 from a two-digit number e.g. <math>54 - 20</math></p> <p>Model on a number line – lots of chanting counting back in tens.</p> 	<p><u>Subtraction within 10</u></p>  <p>How many children are in the bumper car now?</p>  <p><u>Subtracting not crossing ten</u></p> <p><math>20 - 7</math> using numicon</p>  <p><math>18 - 5</math> using counters</p>  <p><math>15 - 2</math> using base ten</p>  <p><math>19 - 4</math> using tens frame</p> 	<p><u>Subtraction within 10</u></p> <p>Draw 7 cookies and cross out 4</p> <p>Draw a first, then, now</p>   <p><u>Subtracting not crossing 10</u></p> <p><math>15 - 3</math></p>  	<p><u>Subtraction within 10</u></p>  <p><math>7 - 2 = 5</math></p>  <p><math>7 - 3 = 4</math></p> <p><u>Subtracting not crossing 10</u></p> <p>12-3 number line – count back</p>  <p><math>12 - 3 = 9</math></p> <p>18 -5 use a part whole model</p>  <p>18 – 5 – bar modelling</p>  <p>18 – 5 - number equation</p> <p><math>18 - 5 = 13</math></p>	<p>As above</p> <p>Count back</p> <p>Count on</p> <p>Less than</p> <p>Difference</p> <p>Take away</p> <p>Subtract</p> <p>Part – whole</p> <p>First Then Now</p>	<p>100 square</p> <p>Number lines</p> <p>Number tracks</p> <p>Bead strings (for children)</p> <p>Bead bar</p> <p>Tens Frame</p> <p>Numicon</p> <p>Place Value Disks</p> <p>Cuisenaire</p> <p>Base tens and ones</p>

### Subtracting crossing 10

Making 10 using ten frames.  $14 - 5$

Making 10 using ten frames.  
 $14 - 5$

Can also use base ten, counters, numicon – as shown above

### Subtracting crossing 10

draw the jam tarts  $13 - 5$

First there were 13 jam tarts

Then 5 were eaten

Now there are 8 jam tarts.

Can also draw the counters and cross out – as above

$$13 = 18 - 5$$

### Subtracting crossing 10

$12 - 9$  –  
number  
line  
count on

$12 - 5$   
Making 10  
by  
partitioning  
the single  
digit

Bar models, number equations  
and part whole models as shown  
above.

Count back orally or use a marked or partly marked number line to find the difference by counting in ones. E.g.  $9 - 4 = 5$  (counting back) and when secure  $9 - 4 = 5$  (counting on)

Use the three stem sentences - First, then, now.

Solve simple one-step problems and missing number problems involving subtraction using practical equipment, concrete objects and pictorial representations, Explain methods & reasoning

2 There are 7 cookies on a plate.

6 of the cookies are eaten.

Complete the sentences.

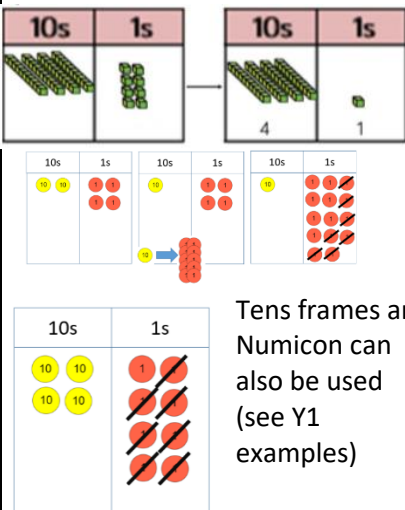

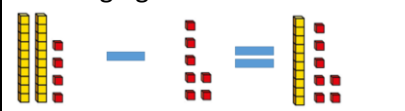

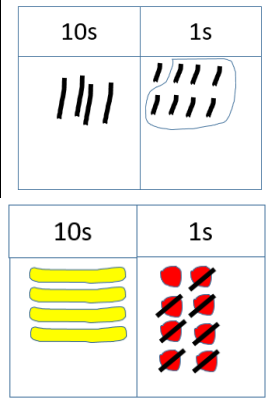

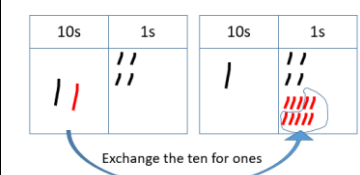

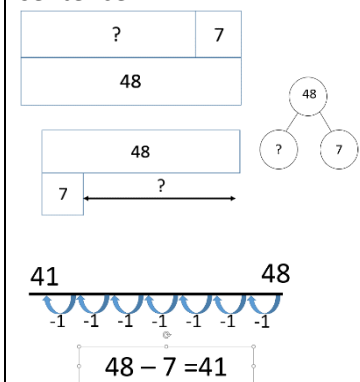

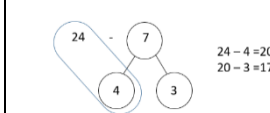

First there were  cookies.

Then  cookies were eaten.

Now there is  cookie.

## Year Two Subtraction

	Mental Strategies	Concrete	Pictorial	Abstract	Vocabulary	Models, Images and resources
Year 2	<p>Subtract numbers using concrete objects, pictorial representations, and mentally, including:</p> <p>subtract a single-digit number from a two-digit number, including crossing tens boundary, e.g. <math>26 - 5</math>, then <math>22 - 5</math></p> <p>subtract a multiple of 10 from any two-digit number, e.g. <math>67 - 20</math></p> <p>subtract two two-digit numbers</p> <p>subtract 9, 19, 29, ... or 11, 21, 31...</p> <p>Recall number bonds to 20 fluently and derive and use related facts to 100 (and 11,12,13,14, 15,16,17, 18,19)</p> <p>Show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot</p>	<p><b><u>Subtracting not crossing ten</u></b></p> <p>48 - 7</p>  <p>Tens frames and Numicon can also be used (see Y1 examples)</p> <p><b><u>Subtracting a single digit crossing 10</u></b></p> <p>24 - 7 – using base ten and exchanging a tens rod for ones</p>  <p>Tens frames and Numicon can also be used (see Y1 examples)</p>	<p><b><u>Subtracting not crossing ten</u></b></p> <p>48 - 7 – children draw them</p>  <p><b><u>Subtracting a single digit crossing 10</u></b></p> <p>24 - 7 - children draw them</p>  <p>Exchange the ten for ones</p>	<p><b><u>Subtracting not crossing ten</u></b></p> <p>48 - 7 – bar models, part whole models, number lines, number sentence</p>  <p><b><u>Subtracting a single digit crossing 10</u></b></p> <p>24 - 7</p> <p>Can use the bar model, part whole model and number lines as shown above.</p> <p>Also partitioning the subtrahend – see below.</p>  <p><math>24 - 4 = 20</math> <math>20 - 3 = 17</math></p>	<p>Count back</p> <p>Count on</p> <p>Less than</p> <p>Difference</p> <p>Take away</p> <p>subtract</p> <p>Part – whole</p> <p>Minus</p> <p>Decrease</p>	<p>100 square</p> <p>Number lines</p> <p>Number tracks</p> <p>Bead strings (for children)</p> <p>Bead bar</p> <p>Tens Frame</p> <p>Numicon</p> <p>Place Value Disks</p> <p>Cuisenaire</p> <p>Base hundreds tens and ones</p> <p>Arrow Cards</p>

### Subtracting a 2-digit from a 2-digit number not crossing the tens

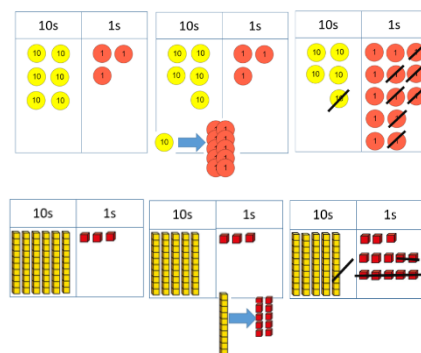

28 – 13 – use counters or base ten

Tens frames and Numicon can also be used (see Y1 examples)

### Subtracting a 2-digit from a 2-digit number crossing the tens

63-17

Tens frames and Numicon can also be used (see Y1 examples)

### Subtracting a 2-digit from a 2-digit number not crossing the tens

28 – 13 – can draw in the place value grid

### Subtracting a 2-digit from a 2-digit number crossing the tens

63-17 – can be drawn in place value grids

$$\begin{array}{r} 17 \quad 20 \quad 24 \\ \hline -3 \quad -4 \\ \hline 24 - 7 = 17 \end{array}$$

### Subtracting a 2-digit from a 2-digit number not crossing the tens

28 – 13 – can draw in the place value grid

Can use the bar model, part whole model and number lines as shown above. Part whole below.

CURRENT GUIDANCE STATES WE SHOULD NOT USE COLUMN METHOD.

### Subtracting a 2-digit from a 2-digit number crossing the ten

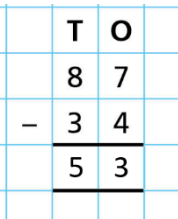

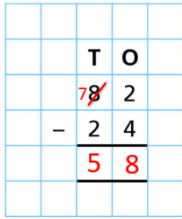

Understand when it is sensible to count back (take away) and when to count on (find the difference)  
Use empty number lines to bridge through multiple of 10

Subtract by using partitioning of TU - TU

Solve simple one-step problems involving numbers, quantities and measures using concrete objects and pictorial representations,

Recognise and use the inverse relationship between addition and subtraction to check calculations and missing number problems.

Begin recording subtraction in columns to support understanding of place value and prepare for efficient written methods

	Mental Strategies	Concrete	Pictorial	Abstract	Vocabulary	Models, Images and resources
Year 3	<p>Recall number bonds to 20 and links to bonds of multiples of 10 to 100, complements to 100 e.g. <math>100 - 55 = 45</math></p> <p>Practise solving varied subtraction questions mentally with two-digit numbers, the answers could exceed 100</p> <p>Subtract numbers mentally, including:</p> <ul style="list-style-type: none"> <li>a three-digit number and ones</li> <li>a three-digit number and tens</li> <li>a three-digit number and hundreds</li> </ul> <p>groups of small numbers, e.g. <math>9 - 3 - 2</math></p> <p>a two-digit number from a multiple of 10, e.g. <math>50 - 38</math>, <math>90 - 27</math>, <math>68 - 35</math></p> <p>Children know the vocabulary below</p> <p>Minuend minus subtrahend equals the difference</p>	<p><u>Subtracting a 2-digit from a 2-digit number not crossing the tens</u></p> <p>Please see Y2 examples</p>     <p><u>Subtracting a 2-digit from a 2-digit number crossing the tens</u></p> <p>Please see Y2 examples</p>     <p><u>Subtracting 3-digit numbers crossing tens and hundreds</u></p> <p>Use base 10 or counters. Here is an example with base ten.</p>	<p><u>Subtracting a 2-digit from a 2-digit number not crossing the tens</u></p> <p>Please see Y2 examples</p>     <p><u>Subtracting a 2-digit from a 2-digit number crossing the tens</u></p> <p>Please see Y2 examples</p>     <p><u>Subtracting 3-digit numbers crossing tens and hundreds</u></p> <p>Represent the place value counters pictorially; remembering to show what has been exchanged.</p>	<p><u>Subtracting a 2-digit from a 2-digit number not crossing the tens</u></p> <p>Please see Y2 examples</p>  <p>Can now move to formal column methods</p> <p><u>Subtracting a 2-digit from a 2-digit number crossing the tens</u></p>  <p>Please see Y2 examples</p> <p>Can now move to formal column methods examples</p> <p><u>Subtracting 3-digit numbers crossing tens and hundreds</u></p> <p>Use formal written methods where exchange is also required.</p>	<p>Subtraction</p> <p>Partition into hundreds, tens and ones</p> <p>Empty number line</p> <p>Count on</p> <p>Carry back</p> <p>First Then Now</p> <p>Empty number line</p> <p>Subtrahend</p> <p>Minuend</p> <p>Difference</p>	<p>100 square</p> <p>Number lines</p> <p>Number tracks</p> <p>Bead strings (for children)</p> <p>Bead bar</p> <p>Tens Frame</p> <p>Numicon</p> <p>Place Value Disks</p> <p>Cuisenaire</p> <p>Base hundreds tens and ones</p> <p>Arrow Cards</p>

	£	5	8	← minuend
-	£	1	3	← subtrahend
		4	5	← difference

### Subtracting money - no decimals

Tommy has £5 and 75p in his pocket.

He puts £2 and 50p in his money box.  
How much is left in his pocket?

### Subtracting money - no decimals

### Subtracting money - no decimals

Formal part whole and counting backwards on a number line also.

Find the difference

Decrease  
by

Solve problems, including missing number problems, using number facts, place value, and more complex subtraction

Subtract with up to three digits, using the efficient written methods of columnar subtraction.

Use understanding of place value and partitioning

Estimate answers calculations and use inverse operations to check

Children will continue to use empty number lines with increasingly large numbers.

Count back from the largest number

132- 75

Count on or find the difference

102-89

Missing-addend problems

Type of problem: missing part

Rewrite the addition equation as a subtraction equation, for example:

$$329 + \square = 743 \rightarrow 743 - 329 = \square$$

**Language focus**

"There is a missing part. To find the missing part, we subtract the other part from the whole."

Missing-subtrahend problems

Type of problem: missing part

Rewrite the subtraction equation by swapping the subtrahend and the difference, for example:

$$477 - \square = 285 \rightarrow 477 - 285 = \square$$

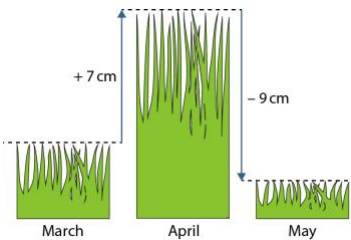

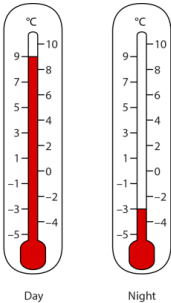

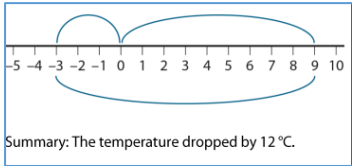

**Language focus**

"There is a missing part. To find the missing part, we subtract the other part from the whole."

# Year 4 Subtraction

	Mental Strategies	Concrete	Pictorial	Abstract	Vocabulary	Models, Images and resources																																																			
Year 4	<p>Practise mental methods with increasingly large numbers to aid fluency</p> <p>Subtract any pair of two-digit and three-digit numbers, including crossing the 10 and 100 boundary, e.g. 58 - 23</p> <p>Count on and back in 10s from any number</p> <p>Subtract a near multiple of 10, e.g. 84 - 29</p> <div><p><b>MS3: Round &amp; Adjust</b></p><p>84 - 29 = 55</p><p>84 - 30 + 1</p><p>54 + 1 = 55</p></div> <p>Understand subtraction as inverse of addition</p> <p>Children know the vocabulary below</p> <p>Minuend minus subtrahend equals the difference</p> <div><table><tr><td></td><td>£</td><td>5</td><td>8</td><td>←</td><td>minuend</td></tr><tr><td>-</td><td>£</td><td>1</td><td>3</td><td>←</td><td>subtrahend</td></tr><tr><td></td><td></td><td>4</td><td>5</td><td>←</td><td>difference</td></tr></table></div>		£	5	8	←	minuend	-	£	1	3	←	subtrahend			4	5	←	difference	<p><u>Subtracting 4 digit numbers crossing tens and hundreds</u></p> <p>See Y3 guidance for 3 digit numbers – it is the same principle.</p> <p><u>Subtracting with money up to 4 digits using decimals</u></p> <p>Use with real money to show how to find differences</p>	<p><u>Subtracting 4 digit numbers crossing tens and hundreds</u></p> <p>See Y3 guidance for 3 digit numbers – it is the same principle.</p> <p><u>Subtracting with money up to 4 digits using decimals</u></p> <p>Children can draw the coins and notes and show the exchange.</p>	<p><u>Subtracting 4 digit numbers crossing tens and hundreds</u></p> <p>See Y3 guidance for 3 digit numbers – it is the same principle.</p> <p><u>Subtracting with money up to 4 digits using decimals</u></p> <div><table><tr><td></td><td>£</td><td>5</td><td><del>7</del></td><td><del>8</del></td><td><del>1</del></td><td><del>0</del></td><td><del>9</del></td><td><del>2</del></td></tr><tr><td>-</td><td>£</td><td>1</td><td>3</td><td>1</td><td>7</td><td>9</td><td></td><td></td></tr><tr><td></td><td></td><td>4</td><td>4</td><td>2</td><td>3</td><td></td><td></td><td></td></tr></table><p>£1.52</p><p>+ 2p   + 50p   + £1</p><p>£8.48   £8.50   £9.00   £10.00</p><table><tr><td colspan="3">£20</td></tr><tr><td>£8.95</td><td>£3.50</td><td>?</td></tr></table></div>		£	5	<del>7</del>	<del>8</del>	<del>1</del>	<del>0</del>	<del>9</del>	<del>2</del>	-	£	1	3	1	7	9					4	4	2	3				£20			£8.95	£3.50	?	<p>Subtraction</p> <p>Partition into hundreds, tens and ones</p> <p>Empty number line</p> <p>Count on</p> <p>Carry back</p> <p>First Then Now</p> <p>Subtrahend</p> <p>Minuend</p> <p>Difference</p> <p>Find the difference</p> <p>Decrease / reduced by</p>	<p>100 square</p> <p>Number lines</p> <p>Number tracks</p> <p>Bead strings ( for children )</p> <p>Bead bar</p> <p>Tens Frame</p> <p>Numicon</p> <p>Place Value Disks</p> <p>Cuisenaire</p> <p>Base hundreds tens and ones</p> <p>Arrow Cards</p>
